Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

- Group I. Claims 1-3, drawn to a graphics arbiter, in regards to the notification to a first and second display source, classified in class 345, subclass 535.
- Group II. Claims 4-10, drawn to gathering, transforming (i.e. texture mapping, lighting) and transferring display memory surface set memory information to output display memory, classified in class 345, subclass 581.
- Group III. Claims 11-18, drawn to presentation surface sets displaying and merging received display information, classified in class 345, subclass 629.
1. Invention Groups I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention: Group I has separate utility such that the graphics arbiter can be used to arbitrate source data without the need for subsequent processing, as recited in Groups II and III; Group II has separate utility such that any graphics arbitration function, in addition to that recited in Group I, can serve as a source for gathering, transforming and/or transferring; Group III has separate utility such that any graphics arbitration function, in addition to that recited in Group I, can serve as a source for displaying and/or merging and does not rely solely on that recited in Group II. See MPEP § 806.05(d).

Art Unit: 2671

2. Because these inventions are distinct for the reasons given above and the search required for: Group I is not required for Group II; Group II is not required for Group III; and Group III is not required for Group I, restriction for examination purposes as indicated is proper.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. A telephone call was made to John B. Conklin on 11/19/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter-Anthony Pappas whose telephone number is 703-305-8984. The examiner can normally be reached on M-F 9:00am-6:30pm.
